FY 2018 BUDGET – TAX REFORM RESOLUTION

This budget resolution will help put our nation on a better fiscal track with a combination of restrained spending, reduced tax burdens, and a growing economy.

Pro-Growth Tax Reform
More Jobs, Fairer Taxes and Bigger Paycheck

Tax Relief for Hardworking Families can:
• Lower taxes so working families can keep more of their hard-earned dollars;
• Allow families to better provide for their children;
• Increase jobs and wages for American workers; and
• Spark savings and investment across the country.

Pro-Growth Tax Reform can:
• Keep good-paying jobs here at home and improve American competitiveness;
• Lower taxes on American small businesses;
• Provide increased economic growth;
• Allow U.S. companies to better compete both here and overseas; and
• Make the United States a more attractive place to invest, do business, and keep jobs at home.

A Simplified Tax Code can:
• Lift the overly burdensome and costly process for calculating and reporting taxes; and
• Reduce the amount of costly loopholes and complex tax breaks.
